# TRANS CARE FUND

## **A Lifeline for Trans Joy, Dignity, and Care**

Every day, transgender and nonbinary people across Santa Barbara and California's Central Coast face barriers to accessing the most basic, essential resources that affirm their identities.

From binders and packers to breast forms, hormone support supplies, wigs, voice training tools, and other gender-affirming items—these are not luxuries. They are necessities that help trans people live fully, authentically, and safely in their own skin.

Yet for far too many in our community, these resources remain out of reach due to financial hardship, healthcare inequities, or lack of access to affirming providers.

When someone can't afford the tools that help them feel at home in their body, it doesn't just affect their confidence—it impacts their mental health, physical safety, and sense of belonging.

## The Trans Care Fund exists to change that.

This fund will provide direct support to transgender and nonbinary people in Santa Barbara and across the Central Coast, ensuring they have what they need to live with dignity, comfort, and pride. Every dollar raised will go directly toward purchasing gender-affirming care items, connecting individuals with vital resources, and offering immediate relief where systemic gaps have failed them.

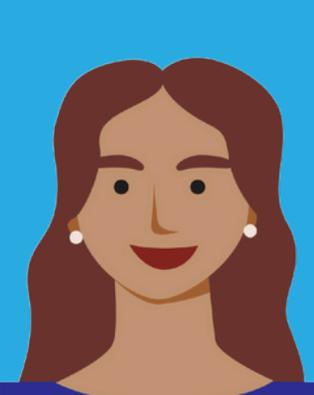

This is more than charity. It's solidarity. It's community care in action.

**Your contribution is a powerful act of love and resistance. By giving to the Trans Care Fund, you are helping someone:**

- Access gender-affirming supplies that improve daily life and safety
- Feel seen, valued, and supported by their community
- Reclaim their power, autonomy, and joy

**Together, we can make sure no trans person has to choose between being themselves and being safe.**

**Over 60% of trans people live in poverty due to job discrimination and underemployment.**

**1 in 3  
transgender  
adults report  
postponing or  
avoiding  
medical care  
due to fear of  
mistreatment.**

**29% of trans  
people have  
been refused  
care by a  
medical  
provider  
because of  
their gender  
identity.**

**Donate today. Help us build a future where every trans and nonbinary person on the Central Coast has the care and resources they deserve.**
